

This is not a template. This is a **University Press Monograph**. "Chicago" is the language of History, Theology, and the Humanities. It relies on the **"Turabian Rigor"**: The authority of the text is established by the precision of its citations and the restraint of its formatting.

To elevate "Chicago" to God-Tier for print, we must abandon the "Term Paper" look (Double-spaced Times New Roman) and implement the **Typeset Book** standard used by *The University of Chicago Press*.

Here is the **Chicago Monograph System 2.0**.

1. The Design Philosophy: "Invisible Authority"

Current "Chicago" templates look like student essays.

The New Chicago Principle:

- **Footnotes are Structural:** We do not hide citations. We use **True Footnotes** (bottom of page) with a horizontal separator. They anchor the page.
- **The "Block Quote" Rhythm:** Academic texts rely heavily on long quotes. We treat these not just as indented text, but as a distinct typographic texture—slightly smaller, tighter leading, distinct indentation.
- **Hierarchy is Restrained:** No bold sans-serif headers. We use **Small Caps**, **Italics**, and **Centering** to differentiate sections without breaking the serif voice.

2. The Typographic Stack (The "Tenure" Choice)

DejaVu Serif is clunky. We upgrade to the classics of academic publishing.

- **Body Type: ETBB (Bembo) or TeX Gyre Pagella (Palatino).**
 - *Why:* **Bembo** is the "Scholar's Serif." It is old-style, humanist, and extremely legible for long-form reading. It feels like a history book printed in 1950.
 - *Settings:* Numbers=OldStyle (123 fits in text better than 123).
- **Headings: ETBB** (Same as body).
 - *Why:* In strict academic typography, mixing fonts is often seen as amateur. We stick to one family but use weight/shape (Bold, Italic, Small Caps) for hierarchy.
- **Display: Latin Modern Sans** (for cover pages only).

3. The Layout System: "The CMOS Canon"

We emulate the layout of a finished book, not a manuscript.

Zone	Function
------	----------

The Text Block	Standard "Van de Graaf" proportions (see Symphony). Justified alignment is mandatory.
The Footnote Area	Reserved bottom space. Separated by a 2-inch rule (<code>\footnoterule</code>).
The Running Head	Verso: Author Name. Recto: Chapter Title. Centered. Small Caps.

4. Implementation Command (The Code)

Give this prompt to Claude to generate the **Chicago 2.0** engine.

ROLE: UNIVERSITY PRESS TYPESETTER / XeLaTeX ENGINEER

PROJECT: CHICAGO MONOGRAPH TEMPLATE (PRINT PREPRESS)

OBJECTIVE:

Create the .latex template for "**Chicago**." This is a strict, traditional template for dissertations, monographs, and history books, adhering to the spirit of the *Chicago Manual of Style*.

1. THE GEOMETRY (geometry package)

- **Margins:**

- Inner: 1.0in
- Outer: 1.0in
- Top: 1.0in
- Bottom: 1.25in (Room for footnotes)

- **Paragraphs:**

- `\setlength{\parindent}{2em}` (Deep indent).
- `\setlength{\parskip}{0pt}` (No space between paragraphs).

2. THE TYPOGRAPHY (fontspec & fbb package)

- **Main Font:** ETBB (Bembo-like).

- *Features:* Ligatures=TeX, Numbers=OldStyle.

- **Alignment:** `\justify` with `\hyphenpenalty=50` (Allow hyphenation to keep the block distinct).

- **Leading:** `\linespread{1.15}` (Generous academic spacing, approx 13pt on 11pt).

3. THE "CMOS" COMPONENTS (titlesec & fancyhdr)

- **Chapter Headings (`\chapter`):**

- **Style:** Centered.
- **Number:** "ONE" or "1" (Roman or Arabic), centered,

- \scshape (Small Caps).
- **Title:** Centered, \bfseries, \Large.
- **Spacing:** 50pt top margin.
- **Section Headers (\section):**
 - **Level 1:** Centered, \itshape (Italic) or \bfseries (Bold).
 - **Level 2:** Flush Left, \itshape.
- **Footnotes (footmisc):**
 - At the bottom of the page.
 - Hanging indent for the footnote marker.
 - Rule: \footnoterule (short horizontal line).
- **Block Quotes (quote):**
 - Indent left and right by 2em.
 - Reduce font size to \small.

Generate the full chicago.latex file compatible with Pandoc.

Why this is "God-Tier" for Chicago

1. **Bembo (ETBB):** It is instantly recognizable as "Serious Literature." It elevates the text from "document" to "publication."
2. **Structural Integrity:** By forcing deep indents (2em) and removing paragraph spacing, we create the continuous "river of text" preferred by academics for immersive reading.
3. **True Footnotes:** Sidenotes (like in Symphony) are modern/scientific. Chicago demands footnotes. This template respects that tradition but typesets them with hanging indents for readability.
